In R. No. 22704 General/39

Station ..... Dated the 2nd July 1940.

From (Name) Major-General N.M. Wilson, C.I.E., O.B.E., K.H.S., I.M.S.,
(Designation) Surgeon-General with the Government of Madras.

To The Secretary to the Government of Madras,
Education and Public Health Department.

Sir,

P 308 (K) I have the honour to forward herewith for the administrative approval of Government a plan and an estimate amounting to Rs ~~9,800~~ 8,900 for the construction of a combined female and maternity ward of 8 beds (addition of a separate female ward of 6 beds with a labour ward of 2 beds) in the Government Hospital, Puttur. At present there is no separate ward for admitting labour cases. Owing to the absence of a female ward, female patients are now admitted into two small rooms attached to the male ward. There is lack of accommodation in the hospital for females. If there is proper

accommodation

ra 7/7

accommodation, a large number of labour cases can be conducted in the hospital itself. The necessity for a combined female and maternity ward for the Government Hospital at Puttur has been stressed by the District Medical Officer in all hi inspection notes, and the urgency for the work has been repeatedly brought to my notice by the advisory committee of the hospital. The following recurring and non-recurring expenditure on account of the construction of the ward is considered necessary by the District Medical Officer.

Present Bed strength 20.

13+7

Items.	Recurring	Non-recurring
1 female toty at Rs.12 (10 plus 2)	Rs.144 ✓	-
Linen	25 ✓	250 ✓
Diet	470	..
Furniture	..	64
Medicines and hospital necessaries	275	..
	914	314

The expenditure is the minimum required for running the proposed ward. It is requested that the Government will be pleased to sanction the work and also the expenditure on staff and equipment as asked for by the District Medical Officer. The work, if sanctioned by Government, will be executed during 1941-42.

I have the honour to be,

Sir,

Your most obedient servant,

Major-General, I.M.S.,

Surgeon-General with the Government of Madras.

Sir,

p3 above Reference:-Govt. Memo.No.26757-1-D2. P.H. dated 6--8--40.

****

The reasons for the decrease in the daily average number of women patients admitted in the Government Hospital Puttur, during the years 1936 to 1939, are explained in the letter of the District Medical Officer, South Kanara, copy of which is herewith enclosed. In the circumstances stated therein, I consider that the work is imperative and urgent.

pp.6-7 supra

At present there is only one toti employed in the

Personal Assistant,
For the Surgeon-General with the Govt. of Madras.

BGA/14-9.

Copy of letter R.No.7563-S/39 dated 26th August 1940 from the District Medical Officer, South Kanara, Mangalore to the Personal Assistant to the Surgeon-General with the Govt. of Madras Madras:-

Sub:-Construction of a Combined Female and Maternity Ward, Government Hospital, Puttur.

Ref.:-Your Memo.No.13700-G/40 dated 9th August 1940 forwarding Govt. Memo. No.36757-1-D2-P.H. dated 6th August 1940.

- - - -

The sanctioned number of beds for this hospital is 20 out of which 6 beds have been allotted for Women patients. The reason for the daily average number of In-patients falling below this allotted number is chiefly due to the fact that the ward allotted to the Women In-patients is so very small that if there are more than two Women In-patients they have got to be either clubbed along with the male In-patients in the same ward or else treated in the verandahs. Naturally, women patients requiring treatment as In-patients are too reluctant to get themselves admitted except under extraordinary and unavoidable circumstances.

It is on account of this objectionable feature in the construction of the present wards, that it was thought very essential that a separate female ward of 6 beds should be constructed in that Hospital. Besides, as there is not a separate delivery room for Maternity cases it was also con-

considered desirable to add a delivery room with accommodation for two post delivery cases to the proposed female ward.

The emergency and the necessity for a separate construction of the proposed, "Combined Female and Maternity Ward" therefore arises on account of the peculiar accommodation difficulty as explained above.

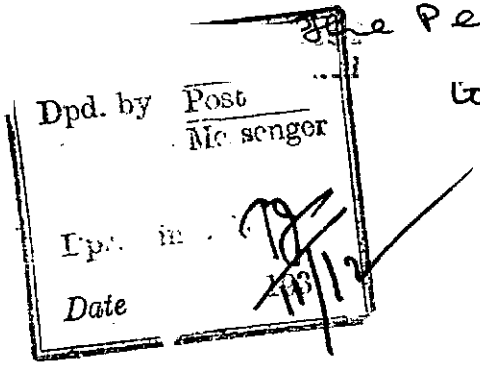
SI-A\evq



Ct No. 267.57 D/2 From the S.G. No. 2270 4 es/39 dt. 12.7.40

[illegible] Buildings:- Govt. Hospital, Puttur - Construction of [illegible] maternity ward - [illegible]

The Surgeon General has submitted proposals for the construction of a maternity ward of 8 beds at an p 30 of (K) estimated cost of Rs 8,900 in the Govt. Hospital at Puttur. The sanctioned bed strength of the Hospital is 20. The daily average attendance of in patients in the hospital for the years 1936-39 was as follows:

Year	Number of Beds		Daily Average Number of In Patients			Total
	Men	Women	Men	Women	Children	
1936	13	7	14.51	2.61	0.42	17.54
1937	13	7	15.49	2.86	0.65	19.00
1938	13	7	14.73	3.53	0.37	18.63
1939	13	7	14.07	4.52	0.61	19
		20				

From the above statement it will be observed that the daily average attendance of in-patients has not exceeded the bed strength of the hospital and that it cannot be

And women much less.

said that the hospital is overcrowded. The S.G. has however stated that there is no separate ward for admitting labour cases and that owing to the absence of a female ward, female patients are now admitted into two small rooms attached to the male ward.

The proposal involves an expenditure of Rs. 9,200 non-recurring and Rs 900 recurring. ~~It is for consideration whether~~ In view of the necessity to restrict expenditure on new schemes which are imperatively and immediately necessary, the S.G. may be requested to say whether his scheme satisfies the above criterion. He may also be requested ~~The S.G. may also be requested~~ to report the number of toties employed in the hospital

Finance (Pt. II)

Part II Scheme for 1941-42.

Construction of a Combined female + maternity ward of 8 beds in the Govt. Hospital Puttur.

The cost of the scheme is estimated as shown below:-

Head of account.		Recurring Rs.	Non-recurring Rs.
50. Civil works - Building - original Works - Minor works.	(1) Construction of a ward of 8 beds. (p. 3 of (K)		8,900.
	(2) Linen & furniture.		300
38. Medical. p. 2 CF.	(3) 1 female bhisti	144	
	(4) Linen, diet + medicines &c.	120	
	Total	914 or 900 roundly	9200

Item (1) above: The cost being less than Rs. 10,000, the proposed work will be a minor work & no separate provision need be made for it in the Budget. The expenditure will have to be met from the lump sum provision for medical minor works that may be made in the PE for 1941-42 under "50. Civil Works."

Items (2) + (4) above The expenditure proposed is consequent on the increase in the bed strength of the hospital from 20 to 28 & calls for no remarks.

Item (3) above One addl. bhisti is admissible on account of the increased bed strength of the hospital. ~~for the proposed addl. beds.~~

ected that the ward

b 20

can be constructed in one year E.+P.H. may be requested to ascertain what provision, if any, is ~~necessary~~ required in the B.E. for 1941-42 in respect of items (2), (3) + (4) on the previous page.

2 This deptt. may agree to the proposal going forward as a Part II Scheme for 1941-42. E.+P.H. may be requested to prepare the necessary Part II Scheme note after obtaining the information referred to at A above

his will be met from the lump sum provision for minor works in Part I.

NOTE BY THE ADMINISTRATIVE DEPARTMENT.

The sanctioned bed-strength of the Government Hospital, Puttur, is 20; out of which 6 beds have been allotted for women patients. This ward is so very small that if there are more than two women in-patients, the women have to go on to the verandas or mix-up with the men. In South Kanara verandas are not suitable on account of monsoon conditions; women will not also share a room with men. To remove these defects, the District Medical Officer has proposed the construction of a female ward. He has also suggested the construction of a separate delivery room with accommodation for two post delivery cases.

2. The hospital has now accommodation for 25 beds. With the construction of the female ward, the bed-strength of the hospital will be increased to 33. The Surgeon-General recommends the employment of one female toti after the construction of the ward. The hospital is eligible for the post.

3. The ultimate cost on account of the proposal will be Rs. 900 recurring and Rs. 9,200 non-recurring, while the expenditure in 1941-42 will be Rs. 100 recurring and Rs. 300 non-recurring.

The expenditure on the construction of the proposed ward is estimated at Rs. 8,900. This will be met from the lump sum provision for minor works made in Part I of the estimate of expenditure. This department considers that it is necessary to remove the defects described above and that provision may be made in the estimate of expenditure for 1941-42 for the employment of the staff.

E. C. WOOD—1-11-40.

NOTE BY THE FINANCE DEPARTMENT.
